## PROSPECTUS.

Mount Saint Mary's College was founded in 1808 by Rev. John Dubois, who afterwards became Bishop of New York.

In 1830 it obtained its first charter from the Legislature of the State of Maryland.

Since its foundation there has been maintained in connection with the college an Ecclesiastical Seminary. Many of the students of this department defray their expenses, wholly or in part, by teaching in the College.

The institution is directed by an association of clergymen who with several lay professors compose its faculty.

Its material interests are controlled by a Board of Directors, of which the Archbishop of Baltimore is, *ex officio*, the President.

At the annual meeting of the Council of the College, held on Commencement Day, June 15, 1905, it was unanimously agreed to form in connection with the Council an Advisory Board, whose duty it will be to act with the Council upon all matters pertaining to College welfare except studies and discipline. It was the sense of the meeting that such a body would be of great benefit. In doing this the College gladly acknowledges the services of its lay alumni in the past, and invites a more intimate co-operation from them in the future.

The following gentlemen were elected to constitute this board:

A. V. D. WATTERSON, LL. D.,  
Pittsburgh, Pa.

RICHARD M. REILLY, LL. D.,  
Lancaster, Pa.

HON. JAMES MCSHERRY, LL. D.,  
Frederick, Md.

JOHN F. COGAN, A. M.,  
Brooklyn, N. Y.

EDWARD J. DUNPHY, LL. D.,  
New York, N. Y.

FRANCIS J. GUILFOILE, LL. B.,  
Waterbury, Conn.

## LOCATION AND BUILDINGS.

The College buildings are beautifully situated on high ground at the foot of the Maryland range of the Blue Ridge Mountains. The location is healthy and convenient of access. The celebrated Academy of St. Joseph and the Motherhouse of the Sisters of Charity, founded by Mrs. Seton, are in the immediate vicinity.

To most parents not the least of the many advantages offered by Mount St. Mary's College is its quiet seclusion and

remoteness from the distractions and dangers of the city—its very situation making it an ideal home of study and moral development. The vicinity of the College is a pleasant summer resort.

The buildings are substantially constructed of stone. The class-rooms, study halls and dormitories are spacious, well ventilated and comfortable in both summer and winter. For illumination, gas with Welsbach burner is used throughout the buildings.

Recently, there was erected a commodious wing which, while serving as a connection between the two principal College buildings, adds to them many important improvements. Containing the apparatus for supplying the buildings with steam heat and equipped with the most approved style of lavatories, bath and toilet rooms, this latest addition makes the College all that reasonably could be desired in the matter of health and comfort. There are in all five dormitories, with each of which is closely connected a comfortable lavatory, abundantly supplied with hot and cold water.

#### MINIM DEPARTMENT.

In addition to the buildings described above, there is a separate department for small boys who are not likely to profit by ordinary College discipline and study. These boys have their own study hall, class-rooms, dormitories and playground. Boys under fourteen years of age are usually admitted to this department.

#### RECREATION GROUNDS.

The College recreation grounds include several terraces and a beautiful grove. In addition to these features and two hand-ball alleys, already in use, a spacious Athletic Field, which includes a running track, has been opened convenient to the College buildings, thus affording to the students every facility for base-ball, foot-ball, running, hand-ball, tennis and other out-door sports.

During recreation hours students are permitted to leave College bounds in the company of a prefect or tutor for walks through the country.

#### THE GYMNASIUM.

Three years ago there was completed a large and costly amusement building, intended to meet all requirements of indoor physical culture and recreation.

Containing under one roof a large and completely equipped modern gymnasium, several bowling alleys, a running track, a commodious billiard hall, a society hall, baths and swimming pool, this building is to the students at all times, but especially in bad weather, a source of the greatest pleasure and health.

In connection with the gymnasium there is given a full course of Physical Culture.

### GOVERNMENT.

The effective though unobtrusive supervision of the clergy, aided by the constant presence of the prefects, secures the peaceful reign of good order, industrious application to study, and obedience to the laws of morality and social propriety. Gentle reproof, kindly correction, the instinct of honor, and, above all, moral and religious influences, are generally found effective in the maintenance of College rules, discipline and study. All are instructed in the doctrines of the Catholic religion and trained to the practice of Christian morality. Vocations to the clerical state are frequent in the higher classes, and the piety and purity of youth are guarded and promoted in every possible way.

### CARE OF STUDENTS.

The Domestic Department and Infirmary are under the direction of the Sisters of St. Francis. In sickness and in health the students are cared for and watched over with parental kindness and solicitude.

### ADMISSION.

All applicants for admission into the College must present satisfactory testimonials from their pastors or other persons known to the authorities. Those coming from other colleges must also present certificates from the superiors of these institutions vouching for the good conduct, industry and honorable dismissal of the applicant.

### EXAMINATIONS.

The classes of new students are invariably determined by examinations at the time of entrance.

Monthly written examinations are held in those classes in which the nature of the work permits.

Public examinations take place half-yearly—in January

and June. Besides the oral examinations at the end of the school year, there is also a general written examination, by which are determined the first honors of the College, consisting of a gold medal in each class.

Students attending the College for more than one year, are promoted in course at the beginning of each scholastic year, if they have attained the required standard in class work, and in the public, oral and final written examinations of the preceding year.

Reports of all the classes are read monthly in the presence of the Faculty and students, and are then sent to parents or guardians.

### COURSE OF STUDIES.

The College course, which must be followed by those who desire to take the degrees, embraces the Latin and Greek languages, French or German, Mental and Moral Philosophy, Logic, Mathematics, Chemistry, Natural Philosophy, Geology, Rhetoric and Literature, History, Christian Doctrine and Elocution.

The study of Chemistry, Astronomy and other sciences is facilitated by an excellent apparatus, a chemical laboratory and an extensive mineralogical collection.

Through the kindness of a friend the College was enabled last year to equip with the latest appliances a laboratory for the practical and thorough study of Physics, Chemistry and Biology.

In connection with this, there has been inaugurated a special three-years' course for the benefit of students preparing for a scientific career. Only those who have completed all the studies of the Freshman Class are permitted to enter this course.

Students following this course will be required to take French and German for two years in place of Greek. At the end of the Sophomore year they may discontinue Latin.

All in this class will be required to follow the usual two years' course in Logic, Metaphysics and Ethics.

The successful completion of this course leads to the degree of A. B., the only degree given in course.

The Preparatory or Academic course, which is a preparation for the College course, is a classical High School. The curriculum of studies embraces Latin, Greek, English Grammar and Rhetoric, French, German or Spanish, Arithmetic and Algebra, History and Christian Doctrine. This course

covers a period of four years. Only those who have successfully completed the regular Grammar course in a recognized school will be admitted to this department. A student who cannot produce a satisfactory certificate will be examined and listed accordingly.

Special classes will be formed for the benefit of those who are not sufficiently advanced to enter the Academic Department.

There is a Business Course in which the study of Latin and Greek is optional, and more attention is paid to commercial studies, such as Bookkeeping, Commercial Law, Mercantile Accounting and kindred branches.

All are required to follow the course of studies prescribed for the department into which they enter.

### DEGREES.

The Degree of Bachelor of Arts is conferred on those students who have followed and completed the regular collegiate course, subject to the following conditions:

1st. At least the last year of the course must have been made in this College.

2d. Each candidate, both in the January and June oral examinations and in the June written examinations in all the classes of the Senior Course, must have attained the standard required by the rules for graduation.

3d. He must prepare a literary essay or discourse satisfactory to the Faculty, and deliver the same in public on Commencement Day, if requested to do so.

The Degree of Master of Arts is conferred on those students who, for at least two years after taking the degree of A. B., have devoted themselves to additional studies, or to some literary pursuit or learned profession, and who make timely application for the degree.

### COLLEGE SESSIONS.

The sessions (1906-1907) of the College begin Friday, September 14, 8:30 A. M., and the first day of February, continuing five months each.

There is a recess at Christmas. If students leave College during that time they must return promptly on the appointed day. No student will be permitted, except for reasons of absolute necessity, to absent himself from College at any other time during the school year while classes are in progress.

Students returning late in September, or failing to report promptly after the Christmas recess, forfeit their right to compete for prizes and honors.

### RECREATION DAYS.

Besides the regular weekly holiday—Thursday—the Sundays and Holy Days of Obligation during the year and the Christmas holidays, the following are the only days on which classes are regularly suspended :

Wednesday in the third week of October—"Barbecue"—which is devoted to field sports.

The day following the annual Spiritual Retreat at the end of October.

The day preceding Thanksgiving Day.

The day following the close of the mid-year examinations.

Washington's Birthday.

Saint Patrick's day.

The last three days of Holy Week.

Easter Monday.

Decoration Day.

All charges must be paid *in advance*, and where bills are not paid on presentation, the College reserves to itself the privilege of issuing a *draft* for the amount. The non-acceptance of such draft will be considered a notice of withdrawal of the pupil, unless some satisfactory explanation is made.

*No deduction* will be made in case of withdrawal during a session, except for cause satisfactory to the College authorities.

Students may enter at any time, and will be charged only from date of entry.

Every student should have, on entering, at least two suits of heavy and two suits of light outer clothing, three suits each of heavy, medium and light underclothing, a set of table napkins, a napkin ring and one-half dozen towels.

No uniform is required; but neatness, simplicity and economy in dress are encouraged by the College. Pocket money should be dispensed through the Treasurer and limited to about two dollars a month.

Books, stationery and clothing will be furnished at current prices by the College, at the request of parents, provided a deposit to pay the probable cost is made *in advance*. *Positively* no money or other articles shall be furnished to any student by the Treasurer *unless such deposit has been made in advance*.

Parents and guardians must see the reasonableness of this rule and should, therefore, either supply their boys with all necessary articles of clothing, etc., or deposit *in advance* with the College Treasurer funds sufficient to cover cost of same.

When a student is about to withdraw from College, timely notice must be given, his account settled and traveling expenses provided for.

Although the College is accessible by rail by way of either Frederick, Hanover, Gettysburg, Hagerstown or Thurmont, the most convenient route is by way of Union Depot, Baltimore, and thence over the Western Maryland and Emmitsburg Railroads.

The annual vacation begins on June 20, 1906 (Commencement Day). The College reopens Friday, September 14, with Mass, at 8:30 A. M. Students are required to present themselves the previous evening. The retreat in the Ecclesiastical Seminary begins Thursday, September 6, at 7 P. M.

Students must be present at noon-time on that day.

## NEEDS OF THE COLLEGE.

---

While striving to maintain that standard of studies and discipline for which Mount St. Mary's College has always been distinguished, the College authorities for some years have aimed so to improve its buildings and equipment as to place it in the very front rank of American educational institutions. With this end ever in view they have made the many and great improvements that during the past ten years have wrought such material changes in the institution and its surroundings. However, not feeling satisfied that sufficient had been accomplished, they recently have completed the new Gymnasium, the new Athletic Field, the Lavatory Annex and the introduction of Steam Heat into all the buildings. Yet now, that all these works are accomplished, many other necessary improvements demand attention. Among the more important needs of the College are a new Chapel, a Library and a Science Hall, not to mention several other features which in these days are held to be essential parts of a well-equipped college.

We need another building for the accommodation of the increasing number of students, and at a recent meeting of the Council of the College it was resolved to begin at once preparations for a New Seminary. Such a building would enable us to devote all the present buildings to College purposes, giving us more class-rooms and also about fifty private rooms. There is quite a demand for the private room. Last September the College inaugurated this feature, and now there are twenty-six students occupying private rooms.

In view of our present conditions and prospects or the future, it seems necessary to build a Seminary at once, hoping to be able to begin the Chapel later. Most of those who promptly and generously answered the appeal for a Chapel, have signified their entire willingness that their contributions be applied to the Seminary Building. This project means the outlay of, at least, \$50,000. The College, enjoying no endowments and receiving no aid from the State, depends entirely upon its annual tuition receipts for both its current expenses and the cost of improvements.

Hence, it is easy to see how much the College needs assistance in order to continue on its march of progress. The College, therefore, takes this occasion to call upon all its Alumni and other friends for prompt and generous aid.

Two years hence, Mt. St. Mary's College will celebrate its Centennial, and we earnestly hope that all its friends will enable us to begin at once the improvements that should signalize this great event in the history of a College so intimately associated with the history of the Catholic Church in the United States.

# THE MOUNTAINEER,

PUBLISHED BY

THE STUDENTS OF MOUNT SAINT MARY'S COLLEGE.

THE MOUNTAINEER is the recognized organ of the students and Alumni of Mount St. Mary's College. Its object is literary improvement, the chronicling of interesting events at the College and the cementing in a more vital bond of fellowship the members of the Alumni, to whom it is invaluable.

Published every month during the school term in the very center from which all college news emanates, and at the point toward which all Alumni gossip is directed, it is a safe and reliable medium of college information and the only exact chronicler of Alumni news.

Being under the direction of the students, it must rely for its support upon the friends of the College. The aid of the Alumni is, therefore, respectfully requested and will be greatly appreciated.

ST. JOSEPH'S ACADEMY FOR YOUNG LADIES,  
EMMITSBURG, MARYLAND.

---

This beautiful and commodious institution, fostered in the same nursery as Mount St. Mary's, has always held the highest reputation for the refined and virtuous education given to its pupils. It is situated in a lovely valley at the foot of the Blue Ridge, about two miles from the College and about one-half a mile from Emmitsburg.

The location, as well as the high standing of these two institutions, offers peculiar advantages to parents who have both sons and daughters to be educated, for both may be visited at the same time, and the brothers and sisters have the opportunity of seeing one another every week during the course of the academic year.

Letters of Inquiry should be addressed to the
